1. The SERGEY LIDIKE was observed in Leningrad apparently	y
plying between the shipyards on the Neva River and the Morskoy Canal. When it was first observed in the canal moving toward the shipyards the ship was	n
empty, judging by its draft. It is apparently a self-propelled lighter, w short, and not very large. No rails were observed on the vessel. When ob-	ide,
again it was at rest midstream in the river of	posite '
the Sudomekh Shipyard. Sketch No. 1 on page 2 shows ship's appearance.	the 50X1-HUM
